## Computer Architecture

TOTAL POINTS 2

1. What are the four layers of the computer architecture?

1 / 1 point

- ☐ Hardware, Windows, Software, User
- ☒ Hardware, Operating System, Software, User
- ☐ Computer, Operating System, Software, User
- ☐ Binary, Hardware, Operating System, Software

Correct

Great job! The layers of computer architecture are the hardware, operating system, software, and user layers.

2. Write a paragraph on examples of abstraction that you encounter in your day-to-day life. For example, driving a car is an example of abstraction, you don't need to understand how a car works underneath the hood in order to drive one.

1 / 1 point

Ok, let's see.  
Some examples of abstraction can be:  
1. Using a computer to send emails.  
2. Use the traffic signs.  
3. Use the TV.

Correct

It's amazing how often we use abstraction in our daily lives, without even realizing it. Thank you for submitting your response to this prompt. I encourage you to think of other ways you use abstraction in your daily routine. This habit will help as you prepare to become an IT Support Specialist!
