GRADE

100%

VPNs & Proxies

TOTAL POINTS 3

1. Two-factor authentication is_____.

1 / 1 point

- ☐ a method that requires two usernames.
- ☒ a method where you need more than a username and a password.
- ☐ a method where you authenticate twice.
- ☐ a method where you need two passwords.

**Correct**

You got it! Two-factor authentication requires a username/password and something extra.

2. VPNs are known as a ____ protocol.

1 / 1 point

- ☐ network layer
- ☐ data link layer
- ☐ connectionless
- ☒ tunneling

**Correct**

Nice job! VPNs are tunneling protocols.

3. A proxy is something that _____.

1 / 1 point

- ☐ allows for many devices to speak to one other device.
- ☐ sends data across a single network segment.
- ☐ encrypts traffic sent across the Internet.
- ☒ communicates on behalf of something else.

**Correct**

Awesome! While proxies are many things, they primarily communicate on behalf of something else.
