## Package Managers

TOTAL POINTS 2

1. Which of the following PowerShell commands will install the package "awesomesoftware" from the Chocolatey software source?

1 / 1 point

- ☒ Install-Package -Name awesomesoftware -Source chocolatey
- ☐ Install-Package -Name chocolatey -Source awesomesoftware
- ☐ Install-Package -Name awesomesoftware -Source MicrosoftWindows

Correct

Nice job! This command will install a (fictional) package, using chocolatey as the software source.

2. Before you install software, which of the following commands should you run to get an updated version of your software?

1 / 1 point

- ☐ apt install
- ☒ apt update
- ☐ apt remove
- ☐ apt search

Correct

Great job! Before you install any software, always make sure you're pulling the latest software from your repositories with the apt update command.
