GRADE
100%

TCP/IP

TOTAL POINTS 3

1. Which of the following is an example of a network layer (layer 3) protocol?　　`1 / 1 point`

- ◉ IP
- ◯ UDP
- ◯ Ethernet
- ◯ TCP

✓ **Correct**
Nice job! IP, or Internet Protocol, is the most common network layer protocol.

2. What's the difference between a client and a server?　　`1 / 1 point`

- ◯ Clients operate on the data link layer, and servers operate on the network layer.
- ◯ A server requests data, and a client responds to that request.
- ◉ A client requests data, and a server responds to that request.
- ◯ Clients and servers are different names for the same thing.

✓ **Correct**
Wohoo! You're correct.

3. Which of the following are examples of layers of our five-layer network model? Check all that apply.　　`1 / 1 point`

- ☐ The presentation layer
- ☑ The application layer

✓ **Correct**
Great work!

- ☑ The physical layer

✓ **Correct**
Great work!

- ☑ The transport layer

✓ **Correct**
Great work!
