   ○ Recover from the incident

   ◉ Detect the incident

   ○ Contain the incident

   ○ Remove or eradicate of the incident

   ✓ **Correct**
   Yep! Before you can take any action, you have to be aware that an incident occurred in the first place.

2. How do you protect against a similar incident occurring again in the future?   **1 / 1 point**

   ○ Cross your fingers and hope for the best!

   ○ Change all account passwords.

   ◉ Conduct a post-incident analysis.

   ○ Update your antivirus definitions.

   ✓ **Correct**
   Correct! By analyzing the incident and figuring out the details of how an attacker compromised a network or system, you can learn what vulnerabilities were exploited and take steps to close them.
